## Product Description

### Exclusive Adjustable Spot Diameter Laser Hair Removal Home Beauty Equipment

#### Product Description:

The Laser Beauty Machine comes equipped with 5 treatment heads, each designed for specific areas of the body. The adjustable spot diameter of 6mm-14mm ensures that the machine can effectively treat both small and large areas of the body. One of the standout features of the Laser Beauty Machine is its portable design. This makes it easy to use and store, allowing you to bring it with you wherever you go.

Overall, the Laser Beauty Machine is a high-quality home beauty machine that offers professional-grade hair removal treatments. Its diode laser technology, adjustable spot diameter, and portable design make it a standout option for those looking to achieve salon-quality results from the comfort of their own home.

#### Features:

Product Name: Laser Beauty Machine

Usage: Beauty Salon, Spa, Home

Treatment Probes: 5 Pieces

Screen Size: 15.6 Inches

Model: LB-100

Output Power: 40W

This Laser Beauty Machine is a versatile and powerful beauty machine that can be used in a variety of settings including beauty salons, spas, and even at home. With 5 different treatment probes, you can customize your beauty routine to fit your individual needs. The large 15.6 inch screen makes it easy to navigate and control. The LB-100 model is a top-of-the-line machine with an impressive output power of 40W. Whether you're looking for a Hydrafacial Beauty Machine or just a high-quality Beauty Machine for your home, the Laser Beauty Machine is a great choice.

Treatment Heads:	5 Pieces
Screen Size:	15.6 Inches
Energy Density:	1-10J/cm <sup>2</sup>
Treatment Probes:	5 Pieces
Output Power:	40W

This is a Home Use Beauty Machine also known as Fractional Co2 Laser Beauty Machine or Beauty Device.

#### Applications:

One of the most popular applications of the Laser Beauty Machine is hair removal. The machine comes with five different treatment heads, including three 755nm laser bars, four 808nm laser bars, and three 1064nm laser bars. These heads are designed for use on different parts of the body, making it easy to achieve smooth, hair-free skin in a variety of areas.

Another common use for the Fractional Co2 Laser Beauty Machine is skin rejuvenation. The laser technology is able to penetrate deep into the skin, stimulating collagen production and promoting cell turnover. This can help to reduce the appearance of fine lines and wrinkles, as well as improve skin texture and tone.

In addition to hair removal and skin rejuvenation, the Laser Beauty Machine can also be used for a variety of other beauty treatments. The adjustable pulse width of 0.02~0.99s makes it possible to customize the treatment to each individual client's needs, ensuring optimal results every time.

The portable style of the Laser Beauty Machine makes it easy to transport from one location to another. This is particularly useful for mobile beauty therapists who need to be able to provide treatments in different locations. The machine's compact size also makes it ideal for use in smaller salons or clinics where space is at a premium.

Overall, the Fractional Co2 Laser Beauty Machine is a versatile and effective beauty device that can be used for a wide range of applications. Whether you are looking to remove unwanted hair, rejuvenate your skin, or provide other beauty treatments, this machine has you cov
